What NOT To Do During & After The Accident

During:

- Don't leave the scene.
- Don't move the vehicle unless instructed by an officer.
- Don't discuss the crash with the other party and don't admit fault. Your words can be used as evidence.

After:

- Don't sign any papers to agree to any damages.
- Don't give details to other insurance companies.
- Don't agree to any payments without talking to a lawyer.

DO: First attend to medical needs, documenting and gathering information, and prioritize contacting us before reaching out to insurance companies. This ensures preparation for future conversations, minimizing the risk of missing out on maximum benefits.
